Peter Stammerjohann
Núria Mestres

Minutes Zoom meeting the 8th of September

- **Network meeting and Conference in February the 24th 2023**

We discussed the possibility to have a Conference and Network Meeting in February since we do not have any partners willing to host it. Vienna has answered positive however they think most Austrian conference participants will be mentors and Günther's answer is "we do not want to claim money from them". The answer to Berlin in spring was that the Nightingale will not continue to run in Berlin however the decision is another now. They will continue which is so nice! However, they found the schedule too tight to host the Conference in February 2023.

The board have now decided to instead of a Conference make a Network Meeting - *Reunion after Covid*. A more informal meeting without Keynote speakers etc. Carina has posted the question to Berlin but also Vienna.

- **News or news for the Newsletter**

There will be some lines about Nightingale Finland who will start in October.

Òscar Prieto has written an article: "El rol de la mentoría en l'abandonament escolar prematur." Núria will ask Òscar to send it to Carina so she can publish it in the next coming Newsletter.

Cecilie mentioned the increased numbers of student's health problems and she was worried about if this affected the numbers of applicants. She could not see that pattern however it is an interesting fact...she will write some line about this to publish in the newsletter.

- **Next board meeting**
Wednesday the 19th of October
